

# ESSENTIAL GUIDE

## CARE FOR YOUR WASTEWATER TREATMENT SYSTEM

### Prohibited Substances

These substances are detrimental to the system's ability to process wastewater, even when present in small amounts.

**Prohibited substances include but are not limited to the following:**

- ✘ Plastic or rubber products, petroleum products such as motor oil, paint, paint thinner, petrol and solvents.
- ✘ Non-biodegradable products, such as sanitary napkins, condoms, baby wipes and disposable napkins.
- ✘ Toxic substances such as pesticides, herbicides, strong disinfectants and strong caustic drain cleaners.
- ✘ Large amounts of paper products, such as paper towels and synthetic fibre-reinforced products advertised as having 'wet strength'.
- ✘ Animal fats, such as bacon grease or lard (normal cleaning of pots and pans is acceptable).

Motor oil

Baby wipes

Sanitary products

Remember your wastewater system is a living system that requires ongoing servicing and maintenance. **For household systems please ensure system is serviced every six months and for commercial systems service every three to four months.**

**IF ALARM IS ACTIVATED** (Contact your installer or service provider immediately)
